SUMMARY

Experienced technical writer, eLearning developer, and instructional designer with nine years of expertise in creating clear, concise documentation and designing engaging, dynamic learning solutions. Skilled in simplifying technical concepts into easily understandable guides and online resources. Possess strong business and technical skills with a focus on cross-functional collaboration.

PROFESSIONAL EXPERIENCE

Senior Course Developer, Genesys Telecom Labs India Pvt. Ltd.

Dec 2020 - Jan 2024

- Developed comprehensive eLearning and ILT materials for Genesys Cloud product via Learning Management System.
- Released ten eLearning courses and two ILT courses in 2022, demonstrating strong individual performance.
- Incorporated instructional design principles, including ADDIE and Bloom's Taxonomy.
- Facilitated seamless collaboration with product managers and SMEs across different time zones.
- Maintained Genesys Writing Style Guide and ensured adherence to approved writing style conventions across all training materials.
- Led the design and customization of eLearning and course document templates using Rise 360 and MS Word.
- Demonstrated strengths in conducting thorough reviews of courses before publishing, providing support for tickets, and actively participating in the testing of ILT labs.

Technical Writer, IHCS Technologies India Pvt. Ltd.

April 2014 - May 2015

- Managed documentation tasks for InSync PM and EMR products across five releases, ensuring the creation, organization, and publication of high-quality documentation for both online and print-based formats, catering to technical and non-technical users.
- Utilized the Help & Manual 6 tool to centralize and maintain the product Help File.
- Developed detailed test plans and cases from business requirements to ensure thorough testing of the product.

Technical Writer, Tata Consultancy Services

Sep 2008 - May 2013

- Published user manuals, functional specification documents, test cases, release notes, troubleshooting guides and video tutorials for global clients, worked closely with SMEs, business analysts, and development teams to keep content accurate and on-schedule.

Key Projects

- **Citicards (US):** Developed new screens for the Single Collection Desktop application in VB6.0, tested and resolved defects across the SDLC, and created an end-user induction manual with visuals. Awarded for the CITI Desktop major release (2010).

- **Wolters Kluwer (US):** Produced the full documentation set, tested the application against customer requirements, and maintained a technical terminology library.
- **SAP Enterprise Portal (US):** Planned, documented, and edited operational procedures and manuals. Created instructional videos with callouts using CamStudio. Supported portal customization with the development team.
- **CHEP Material Intelligence (Australia):** Deputed to the Kolkata office to gather requirements from the development team and business analyst. Authored and published user manuals covering all functionality. Won client recognition and an award for clarity of writing.

TECHNICAL SKILLS

- **Documentation Tools:** Help&Manual6, Confluence Wiki, Doc-To-Help, RoboHelp, FrameMaker, MadCap
- **eLearning & Creative:** Articulate Storyline, RISE 360, Adobe InDesign, Camtasia, Snagit, Photoshop
- **Languages & Databases:** Excel VBA, VB.Net, HTML5, XML, MS SQL
